

Nonwoven Bag Handle Cutting Machine (SE-SWD2011)

Summary

The Nonwoven Bag Handle Cutting Machine This machine mainly is used for cutting nonwoven bag handle, which also is essential to the nonwoven bag manufacturer procedure.

Technical Data

Model	SE-SWD2011
Power	150W
Voltage	220V
Weight	40KG
Dimensions	1000*800*1100mm

Functions and Features

- ✓ Simple operation, Start quickly.
- ✓ Automatic operate, without labor.
- ✓ Cutting length: 0-1.6m, adjustable and precise.
- ✓ Auto stop when material is shortage.
- ✓ Cutting mould was made of imported steel, mechanical transmission, stable and wear-resisting, longer useful life than traditional mould.
- ✓ Precisely speed regulation device, adjust cutting speed depended on customer's requirement.

Machine Details

Cutting mould was made of imported steel, mechanical transmission, stable and wear-resisting, longer useful life than traditional mould.

Precisely speed regulation device, adjust cutting speed depended on customer's requirement.

Mechanical adjust length, clear mark, adjust conveniently.
